- Findings Summary

The table below summarizes the findings of the review, including type and severity details.

Severity	Discovered	Fixed
Critical	0	0

High	0	0
Medium	0	0
Low	0	0
Total	0	0

Severity Matrix

Impact	High	Medium	High	Critical
	Medium	Low	Medium	High
	Low	Low	Low	Medium
		Low	Medium	High
		Likelihood		

Informational Issues

I-01. refresh of reserve is not needed in set_borrow_order

Location:
programs/klend/src/handlers/handler_set_borrow_order.rs

Description:
A refresh of reserve is not needed in `set_borrow_order` because we are not using collateral amounts in the flow.

Recommendation:
Remove the function call.

Customer's response: Fixed

About Certora

Certora is a Web3 security company that provides industry-leading formal verification tools and smart contract audits. Certora's flagship security product, Certora Prover, is a unique SaaS product that automatically locates even the most rare & hard-to-find bugs on your smart contracts or mathematically proves their absence. The Certora Prover plugs into your standard deployment pipeline. It is helpful for smart contract developers and security researchers during auditing and bug bounties.

Certora also provides services such as auditing, formal verification projects, and incident response.
